

Sponsored Dog Walk

17th April
2010

**York Lions Club supporting
'Baby Lifeline'
for
York District Hospital
and
Martin House Children's Hospice**

**We
Serve**

'Baby Lifeline' came into being, as a Charity, in 1981 after Judy Ledger, now Chief Executive, suffered personal loss of 3 premature babies. York Lions are raising funds for 'Baby Lifeline' to support pregnant mothers and new born babies in **York District Hospital**. Funding will provide more specialist equipment which will be of great benefit to the maternity services provided by the hospital. The burden on the NHS is greater than ever before and our appeal is to complement the work already carried out.

Martin House Hospice cares for children and young people throughout the Yorkshire Region, with progressive life-limiting illnesses and provides support to their families

Route—Millennium Bridge to Skeldergate 1.5 mile circuits (or less according to your mobility)
